Letter of Certification 2009-2010 Energy Bill Tax Credit

March 12th, 2009

To Whom It May Concern,

This letter provides meaningful information for Sun Windows customers that desire to take advantage of the 2009 Stimulus Plan's Energy Bill Tax Credit for replacement windows and doors. The new Tax Credit will allow homeowners a 30% tax credit up to a maximum of \$ 1,500.00 if the glass option has a .30 or below "U" Value and a .30 or below SHGC value.

Sun Windows has a glass package available from Guardian Industries identified as ClimaGuard 5527 that has a center of glass "U" Value of .30 or below and a SHGC value of .30 or below. Replacement windows and doors from Sun Windows, Inc. specifying ClimaGuard 5527 will have a label on each product identifying the center of glass "U" Value and the SHGC value.

Sun Windows is in the process of adding the ClimaGuard 5527 as an optional Low E that must be used in order to meet the Energy Tax is new criteria. Further NFRC simulations validating the total "U" Value and total SHGC are in the process.

Should you have any questions or concerns regarding the new stimulus plan tax credit for replacement windows and doors, please contact your local Sun Windows representative.

You can visit our web site for more information at:
